# Breaking news

06 May noon

## Microsoft pledges to store European cloud data in EU

In a blog post on Thursday, Microsoft president Brad Smith said: "If you are a commercial or public sector customer in the EU, we will go beyond our existing data storage commitments and enable you to process and store all your data in the EU."

"In other words, we will not need to move your data outside the EU."

Smith said the commitment would apply across all of Microsoft's core cloud services -- Azure, Microsoft 365, and Dynamics 365—and would take effect by the end of next year.
